

# INFRASTRUCTURAL WORKS

## MELTON WEST INDUSTRIAL ESTATE

Date Awarded

February 2008

Duration of Works

24 Weeks

Contract Value

£1.6m

### Description of Works

The project was to construct all required infrastructure for the Melton West Industrial Development.

The works comprised the following elements:

- Installation of mains sewer and associated linking drainage and manholes
- Installation of flood alleviation trenches to development perimeter including RC outfall points
- Installation of highway network including footways and cycle route
- Installation of street lighting, signage and ducting for all associated utilities
