

CONSTRUCTION OF A NEW FACTORY SITE

MELTON WEST INDUSTRIAL ESTATE

Date awarded

February 2008

Duration

28 weeks

Description of Work

The project was to construct a new factory site at the Melton West Industrial Estate, East Yorkshire.

The project was carried out on a Design & Build basis; fundamental to a successful delivery of the scheme was gaining a comprehensive understanding of the client's operational activities and requirements in order to deliver a facility that was both functional and aesthetically pleasing.

The end result is a 6500m² factory facility with extensive storage areas which is complimented by a multi level contemporary office area which is now used as the companies main Operating Centre.

Contract Value

£2.5m
