

# URBAN REGENERATION OF A SEASIDE TOWN

BRIDLINGTON, EAST YORKSHIRE

Contract Period

12 weeks

Contract Value

£112,000

Scope of Works

- High quality paving.
- New architectural street lighting and furniture.
- Soft landscaping and grassing

Our works at Crescent Gardens formed part of the regeneration of Bridlington's central area. Crescent Gardens Park is located adjacent to the main beach and as such is a focal point for visitors.

The area was in need of modernisation to keep pace with tourist expectations.

We first removed all traces of the old park, then created an attractive open space with high quality paving, new architectural street lighting and furniture. Soft landscaping and grassing followed.

The result? A pleasant and inviting area to be valued by visitors and residents alike.
