

CASE STUDY

Frameworks

Client: East Riding of Yorkshire Council

Location: Throughout East Yorkshire

Contract Value: £5,000,000

Contract period: 5 years

Our ongoing partnership with the council has involved us in a diverse range of civil engineering schemes - more than 30 so far, with values between £50,000 - £700,000. The projects have been undertaken mainly in heavily populated urban areas and high traffic flow areas, working by day and night.

The works have included:

- junction improvements
- carriageway resurfacing
- footpath construction
- hard and soft landscaping
- environmental improvements
- sea defences
- paving
- school playground improvements
- cliff stabilisation
